

## PRODUCT NAME

Endurawood  
Cladding System

## MANUFACTURER

Euramax Solutions Limited  
Euramax House  
Ashroyd Business Park  
Barnsley, S74 9SB

## PRODUCT DESCRIPTION

Endurawood Cladding is made from 100% aluminium protected by a durable powder coat finish. It's immune to fire, rust, rot, insects and will never warp, split or crack. Even extreme heat or freezing cold can't damage Endurawood. Sublimated in Endurawood's award winning woodgrain finish or custom solid colour coated, it meets the highest finishing standards in the world.

Endurawood's unique hidden fastener system creates a clean finish. The interlocking system makes Endurawood cladding a smart choice when water penetration is a concern. In the event repairs are needed, Endurawood's unique top-down interlocking board system installation makes bottom up repairs fast and simple. In addition, Endurawood cladding requires next to no maintenance.

Sizes:

Cladding comes as standard in 5,640mm lengths

Colours:

A wide variety of over 30 woodgrain colours as well as solid and custom colour options

## TECHNICAL DATA

Material/Paint Coatings Data:

- 100% Recyclable
- VOC-free coatings
- Lead free finishes

## WARRANTY

Endurawood expressly warrants for a limited lifetime that its aluminium products are free from manufacturing defects in material or workmanship when installed according to Endurawood

specifications and properly maintained.

The warranty provides for a 15 year warranty for the Endurawood finish, including cracking, chalking, colour change, gloss retention and adhesion of finish.

## MAINTENANCE

Our products are designed to be effortless and low maintenance. Wash the surface with a mild solution of pure soap or mild non-abrasive kitchen detergent in warm water. Application should be with a sponge, soft cloth or soft bristle nylon brush, and should be gentle to prevent shiny spots. If cared for in this way, your Endurawood application should give many years of easy maintenance life.
