

PRODUCT NAME

Endurawood
Decking System

MANUFACTURER

Euramax Solutions Limited
Euramax House
Ashroyd Business Park
Barnsley, S74 9SB

PRODUCT DESCRIPTION

Endurawood Decking is made from 100% aluminium protected by a durable powder coat finish. It's immune to fire, rust, rot, insects and will never warp, split or crack. Even extreme heat or freezing cold can't damage Endurawood. Sublimated in Endurawood's award winning woodgrain finish or custom solid colour coated, it meets the highest finishing standards in the world.

Endurawood's unique hidden fastener system creates a clean finish. In addition Endurawood Decking requires no maintenance.

Sizes:

Interlocking Decking boards are available as standard in 5,640mm lengths

2-part slat system also available. Boards are 5,650mm length and 6mm thick when put together.

Colours:

A wide variety of over 30 woodgrain colours as well as solid and custom colour options

WARRANTY

Endurawood expressly warrants for a limited lifetime that its aluminium products are free from manufacturing defects in material or workmanship when installed according to Endurawood

specifications and properly maintained.

The warranty provides for a 15 year warranty for the Endurawood finish, including cracking, chalking, colour change, gloss retention and adhesion of finish.

MAINTENANCE

Our products are designed to be effortless and low maintenance. Wash the surface with a mild solution of pure soap or mild non-abrasive kitchen detergent in warm water. Application should be with a sponge, soft cloth or soft bristle nylon brush, and should be gentle to prevent shiny spots. If cared for in this way, your Endurawood application should give many years of easy maintenance life.
